Work Experience

Simply Dine

- Waiter, Jun 2017 to Current
- I help to provide a high standard of service at events for guests and companies ensuring we meet all their needs and expectations. I have Worked as a waiter for various events with 100+ guests, showing my organisational skills and ability to work with a team or individually. Adapting to each event and being flexible, utilising equipment and surroundings.

The Fascia Place connected with Our Factory – Upper Wield, Alresford

- Floor worker, 21 Jun 2021 to 13 Oct 2021
- I worked on the factory floor combining both time management skills and communications skills to ensure the smooth flow of production. My job consisted of using highly automated equipment to produce a high finish on the products being produced. I had to be both adaptable and have attention to detail to ensure no stages of the production line were being help up, preventing bottle necks, and to guarantee high levels of quality.

Galliford Try Construction Company – Woking, Surrey

- *Work Experience Study*, Jun 2019 – 1 week placement
- During my work experience I worked with Galliford Try Construction Company on one of their jobs next to Woking Station building hostel flats for commuters coming in and out of the station during the week. during the time I worked there I supported the Chief Operating Officer with daily operational functions around the site and learnt how a building site runs efficiently and effectively.

McLaren racing – Woking, Surrey

- *Work Experience Study*, Jul 2019 – 1 week placement
- At McLaren I went around the different design sections of the racing car and made certain parts for the car as well as a memento of my time there. The different sections consisted of 3D printing, carbon fibre design, the body shop, paint work, gear box fittings and quality control. This work experience gave me a great insight into how to work productively and quickly with high levels of accuracy during production processes. Furthermore, it also offered me a greater understanding in what I want to do in the future with automotive design.

D-Class – Chobham, Surrey

- *Work Experience Study*, Jul 2020 – 3 week placement
- At D-class I gained experience in re trimming bespoke interiors for a variety of different cars. While I was there, I worked very closely with all the different employees taking care of all the different aspects of the business. I learnt how they fuse classic and contemporary trimming methods to create or restore car interiors.

Additional Information

Fully Qualified Rugby Referee: I have refereed at National tournaments, school events and local clubs. In this role I need to use my knowledge and skills to observe the game, analysing the players' actions and deciding confidently what action is required to provide fairness, consistency and to uphold the code of conduct and rules of the game. I also represent my schools first team in both rugby and cricket.
