Brunel's Computer Scientists are named in UK's Top 100

8 Apr 2022

Congratulations to Zidong Wang, Professor of Dynamical Systems and Computing from the Department of Computer Science, who has been named as the UK's Top Electronics and Electrical Engineering Scientist in the UK by [Research.com](#). Following closely behind at number 25 is Xiaohui Liu, Professor of Computing, also from the Department of Computer Science.

Zidong and Xiaohui have been ranked highly in the Computer Science Discipline as well, with positions at the 5th and the 53rd in the UK, respectively.

Research.com is one of the major websites caring about the quality and visibility of research with its mission to offer leading researchers better exposure of their achievements. The rankings of scientists are based on transparent procedures through well-established metrics gathered from trusted sources of data, which include h-index, publications and citations values collected on 6 December 2021. The top scientists ranking is a reliable list of leading scientists crossing all disciplines of science and technologies, based on a meticulous examination of 166,880 scientists on Google Scholar and Microsoft Academic Graph.

Congratulations to Zidong and Xiaohui.

Professor Zidong Wang
